RESEARCH INITIATIVES

Teen Pregnancy Prevention and Sexual Health
The Teen Pregnancy Prevention and Sexual Health Initiative evaluates both abstinence-only and more comprehensive sexual education programs that are offered through the Alabama Department of Public Health.

Escape Vapes
The Escape Vapes Youth Nicotine Prevention Project is a Human Sciences Extension Initiative to prevent and reduce vaping across the state of Alabama for youth aged 11-18.

Be SAFE
Be SAFE is a Human Sciences Extension Initiative used to help communities and schools reduce bullying behaviors. Be SAFE focuses on the prevention of bullying, bias, and harassment by building positive social and emotional skills for youth ages 11-14.
