UF Health Cancer Center Oncology Grand Rounds
Presents
“The Cancer Imaging Archive as an Example of Semantic Data Integration”

Mathias Brochhausen, PhD
Associate Professor and Associate Director of Education,
Department of Health Outcomes & Biomedical Informatics
College of Medicine, University of Florida

Wednesday, November 13, 2019
12:00 – 1:00 pm
Communicore C1-004

Videostreaming: https://mediasite.video.ufl.edu/Mediasite/Play/5f9a3900218c41458620e43b1161d5881d

LEARNING OBJECTIVES:

Upon completion of this activity, participants should be able to:

1. Specify to which extent and in which format The Cancer Imaging Archive (TCIA) currently provides clinical data.
2. Explain the way data is modeled in the Resource Description Framework (RDF).
3. Provide a definition of “computable semantics.”

Speaker Disclosure:
Dr. Mathias Brochhausen has disclosed that he has no relevant financial relationships. No one else in a position to control content has any financial relationship(s) to disclose.

Accreditation: The University of Florida, College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit: The University of Florida College of Medicine designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
