UF Health Cancer Center Oncology Grand Rounds

Presents

“Clinically-relevant protein oxidation endpoints in cancer”

Ashutosh Rao, PhD
Chief, Laboratory of Applied Biochemistry,
Office of Biotechnology Products
Center for Drug Evaluation and Research
U.S. Food and Drug Administration

Wednesday, March 18, 2020
12:00 – 1:00 pm
Communicore C1-004

Videostreaming:  https://mediasite.video.ufl.edu/Mediasite/Play/39ae9182e31f49baa41f2543a6684d271d

LEARNING OBJECTIVES:
Upon completion of this activity, participants should be able to:

1. Define and distinguish the use of protein carbonylation as a clinically relevant endpoint in biological samples.
2. Name one method that can be used for reporting total protein oxidation in biological samples.
3. Identify at least one protein that is irreversibly oxidized in response to anticancer drugs.

Speaker Disclosure:
Dr. Ashutosh Rao has disclosed that he has no relevant financial relationships. No one else in a position to control content has any financial relationship(s) to disclose.

Accreditation: The University of Florida College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit: The University of Florida College of Medicine designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
