NOVEMBER IS LUNG CANCER AWARENESS MONTH. Wear white all month to help raise awareness for lung cancer and the importance of screenings to save lives. Join us October 30 as we kick off a month-long celebration to raise awareness for lung cancer. Get a quit kit to help you stop smoking, participate in an interactive painting experience, take a photo with our photo frame and learn ways to prevent lung cancer.

UF Health staff are encouraged to wear white.

Understanding Lung Cancer

- Lung cancer is the leading cancer killer of men and women in the United States.
- Cigarette smoking causes about 90% of lung cancer deaths in the United States.
- You can stop lung cancer before it starts.
- The 5-year survival rate for men is 15%.
- The 5-year survival rate for women is 21%.
- 174,000 are diagnosed with lung cancer in the United States every year.
- 75% of new cases occur in people 65 or older.
